

CONNECTICUT Manufacturing

CORE VALUES

- We put the **Team First**. We **respect** our team members, encourage, and develop each other by acknowledging the individual unique contributions to furthering the goals of OOM and OCE. We make it a priority to support each other as we serve the manufacturing community and clean economy community. We know that a well-coordinated and high performing team will offer significant value to our customers. The development of our team and partners in the manufacturing and clean economy ecosystems is our highest value.
- We are **Customer Centric**. We serve our customers with **integrity** to assist in making it easy for them to make quality products, hire people and offer life changing careers. We focus on our customers, the manufacturing companies in Connecticut, and the growing Clean Economy ecosystem.
- We are **Focused** on our strategic priorities with **determination** to add value in building supply chain resiliency, driving innovation and developing talent. Additionally, we focus on developing infrastructure and Research & Development in the Clean Economy. We do not allow bright shiny objects to distract us from our strategic priorities.
- We are **Gently Relentless** in the pursuit of our strategic priorities. We recognize all obstacles as mere speedbumps. We take **responsibility** for the advancement of progress and know if we slow down, we can navigate the obstacles gently and continue in the pursuit of our vision. We collaborate, communicate, and coordinate to get all stakeholders moving towards a common vision.
